

The Second Fix Kit for the TileVision® TV/22/FR2 consists of the parts as shown below:

1

TileVision® screen assembly with four Velcro self-adhesive strips to secure the unit into the back box before the TileVision® is sealed in place with silicone sealant (not supplied).

2 *Comprehensive installation and operating instructions*

3

Mirrored acrylic surround with peel-off protective covering.

The surround can be used to cover the junction between the tiles and the back box. It is fixed in place using silicone sealant (not supplied).

4 *Splashproof universal learning remote control with 3 V lithium cell ready installed. An insulating disc must be removed to activate the remote control.*

7

Composite cable

5 *Transparent self-adhesive remote control holder.*

8

Component cable

6 *Standard full-function remote control with AAA batteries (not waterproof).*
